Notes:
For purpose of working out the deficiency:
(1) The deficiency of teaching faculty and Resident Doctors shall be counted separately.
(A) For Teaching Faculty:
(a) For calculating the deficiency of faculty, Prof., Assoc Prof., Asst. Prof & Tutor in respective departments shall be counted together.
(b) Any excess teaching faculty in higher cadre can compensate the deficiency of lower cadre of the same department only.
(c) Any excess teaching faculty of lower cadre/ category in any department cannot compensate the deficiency of any teaching faculty in the higher cadre/category of the same department or any other department. e.g. excess of Assistant Professor cannot compensate the deficiency of Associate Professor or Professor.
(d) Excess/Extra teaching faculty of any department cannot compensate the deficiency of any teaching faculty in any other department.
(B) For Resident Doctors:
(a) Excess of SR can be compensated to the deficiency of JR of the same department only.
(b) Excess SR/JR of any department cannot compensate the deficiency of SR/JR in any other department.
(c) Any excess of JR cannot compensate the deficiency of SR in same or any other department.
(d) Any excess/extra teaching faculty of same or any other department cannot compensate the deficiency of SR/JR. e.g. excess of Assistant Professor cannot compensate the deficiency of SR or JR.
(2) A separate department of Dentistry/Dental faculty is not required where a dental college is available in same campus/ city and run by the same management.

Verification of compliance submitted by institute:

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	Deficiency of Faculty is 54.55%	The inspection day was in between Christmas and New Year eve, some of the faculty had taken leaves in advance but all had joined back within two days. Copy of the leave letters and joined reports enclosed as proof. Some faculty staffs were on night duty but when they reached back to the Hospital after 11.00 a.m. they were not counted by assessors. Details of all faculty working in concern departments are enclosed.	The deficiency of faculty is 27.9% on the day of assessment.
2	No faculty is available in Radio diagnosis and T.B. & Chest departments.	Dr.Narayana Krishnan Radiologist is working since 01.06.2011 in our institution and was preparing all reports of the department along with the senior residents. We have one Assistant Professor Dr. B. Natarajan Working from 16.05.2014 has an eye injury and was on leave on that day. Dr.Rajalakshmi another Assistant Professor working from 11.09.2015 is pregnant and has to visit obstetrician on 29.12.2015 because of some pregnancy complications. Dr. K. Harish, Assistant Professor working from 02.01.2013 was on leave on the day of assessment. The department in their absence is looked after by Dr.Narayana Krishnan retired Radiologist who is working since 01.06.2011 in our institution. Previous Professor of T.B. & Chest were relieved of their duties and suitable faculty have been appointed. Details of faculty now working in institution are enclosed.	No faculty is available in the department of radio diagnosis on the day of assessment. Deficiency of faculty in the department of TB CD is only partially rectified.
3	Shortage of Residents is 82.50% as detailed in the report	As the inspection day was in between Christmas and New Year eve some of the Residents had taken	Deficiency of residents is 34.5% on the day of assessment.

		leave in advance but all had joined back within two days. Copy of the leave letters and their joining reports are enclosed as proof. Some Residents staff was on night duty but when they reached back to the Hospital after 11.00 am they were not counted by assessor. Details of all Residents working in concern departments are enclosed.	
4	Bed occupancy is 29.38% on day of assessment.	Bed occupancy was about 70% on day of assessment but because of Christmas and New year eve, some of the patients who were feeling slightly better had taken leave and wanted to be treated in OPD. These patients would like to be with their family on New years day even though they were sick and wanted to be treated in OPD.	Bed occupancy on the day of assessment is not rectified. It is 42.1% on the day of assessment.
5	OPD attendance as given by institute at 1354 appears to be inflated. It seemed to be less than 1000.	Usually our daily OPD is about 1300 to 1500 per day. On the day of inspection, the OPD attendance was 1354. Copy of the OPD attendance for December 2015 is enclosed.	OPD attendance provided by the institute is 1416. It is inflated. The assessors revisited the OPD in the afternoon around 4 pm (OPD timings are 8.30 to 4.30 pm). It was nearly vacant.
6	Casualty attendance was only on 6 on day of assessment.	The patients in casualty ward were 6 at the time of assessor's arrival i.e. 10.30 am but on the whole day, 154 patients treated in the casualty. The original casualty cases were listed below for 29.12.2015. 08 am to 02 pm – 32 02 pm to 08 pm – 72 08 pm to 08 am – 50 Copy of casualty attendance annexed as Annexure.	Casualty attendance was 9 at the time of assessment in the morning. No patients were admitted in the casualty. The figures provided by the institute are inflated. Only Three patients were present in the casualty at 4 pm.
7	Radiagnosis department : In spite of non-availability of faculty, USG, CT are reportedly being done. Workload of plain X-rays is only 44 which is grossly inadequate.	Dr.Narayana Krishnan Radiologist is working since 01.06.2011 in our institution and was preparing all reports of the department along with the senior residents. We have one Assistant Professor Dr. B. Natarajan working from 16.05.2014 had an eye injury and was on leave on that day.	No faculty was present in the department on the day of assessment. The number of investigations reported does not match the actual OPD and IPD workload in the institution. Also, these investigations are reported in the absence of faculty in the department.

8	Laboratory workload is grossly inadequate. Data provided by institute are highly inflated.	The Assessor has taken the list from laboratory by 11.30 am and the actual investigations were done till 4.30 pm. Copy of laboratory work load is enclosed as proof.	The data provided by the institution are inflated. For example, the individual hematological investigations are counted separately, to inflate the figures.
9	Ward : Most of the wards were empty. No Nurses, Residents are posted.	<p>It is fact that our area was worst affected due to heavy rain and flood. Due to lack of transportation, the patients were not able to visit the Hospital. Two of the wards in the Hospital kept vacant for meeting emergency situation and in other two wards, renovations were under taken and enamel painting was going on therefore, the patients of these wards were shifted to the other wards.</p> <p>These residents and nursing staffs were posted with those patients in other wards.</p> <p>Residents and nursing staffs, duty lists are enclosed.</p>	The number of nurses seem inadequate in most of the wards..
