#### 4. Verification of compliance submitted by institute:

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	<p>OPD attendance upto 2 p.m. as verified by assessors from registers was 705 against requirement of 800. There was no crowd in OPD at 12:30 p.m. &amp; also at 2 p.m. Data provided by Institute are inflated.</p>	<p>The Hospital is located in the interior about 8 km inside the main road and caters to Rural population. Patients visiting MIMS for their ailments are mostly villages who are farmers or Agricultural workers.</p> <p>At MIMS we are not only catering to the Health needs of these patients but also providing free food, free investigations, Medicines and free Transport to these patients. Even on a daily basis the Hospital has arranged transport for picking up and dropping the patients free of cost.</p> <p>With such facilities being offered by our College the patients prefer to get admitted even for a single day for investigations and for treatment.</p> <p>Patients from the nearby villages reach the hospital in batches or groups by the local transport available by our Hospital Transport facility till late afternoon. After Initial examination the patients are sent to the different departments for cross consultation or for investigation. While the average OP per day is around 1100 nos. on any working day, due to batch nature of arrivals, the OPD area gets less crowded for specific time period during the day rather than throughout the day. OPD data is enclosed for March</p>	<p><b>OPD at 2pm is 1093 patients</b></p>

		and April (till 10 <sup>th</sup> ) 2018	
		<b>Deficiency Clarified</b>	
2	Bed Occupancy at 10 a.m. on day of assessment was 31.92 %.	<p>The bed occupancy was around 88%.</p> <p>The Assessor did physical verification of bed occupancy by counting the patient on the bed in all the wards between 9:45 am to 11:00 am.</p> <p>There were 499 In Patients on the day of Assessment.</p> <p>The Bed occupancy in different ward of the hospital on that day is as follows:</p> <p>OBG - 52, General Surgery-97, ENT-27, Ophthalmology-29, DVL-18, Pulmonary Medicine-14, Paediatrics-60, Orthopaedics-72, General Medicine-116, Psychiatry-14.</p> <p><b>Total : 499</b></p> <p>For unknown reasons the Assessor did not take in to account all the patients for calculating the bed occupancy on that particular day of Assessment.</p> <p>The Assessor on the day of Assessment rejected many patients in the IP count saying that they require OP treatment only. Most of the Patients were admitted after being advised by the Senior Faculty of the concerned specialty.</p> <p>In fact, on an average bed occupancy is 85% every</p>	<b>76.31%(435 patients admitted out of 570beds during hospital rounds by assessors)</b>

		<p>day if calculated per annum.</p> <p>We have been taking effective efforts by planning and implementing programs like Mini Health Camps, Diagnostic Camps, Specialized program for Elderly / Geriatric Care/ Psychiatric Disorders, Adolescent Health, Comprehensive Health camps.</p> <p><b>Deficiency Clarified and rectified</b></p>	
3	<p>In Paediatrics ward, out of 60 patients, only 20 were genuine; rest were healthy children found playing in the ward or had minor complaints.</p>	<p>Few patients were admitted with infective Diarrhea and were undergoing treatment of Injectable Antibiotics and Intravenous fluids to which they responded and recovered and were active.</p> <p>All the 60 patients in the Pediatrics Ward were admitted after due consideration of their complaints, which were given by the Attendants / Parents of the sick child. As per the opinion of the treating doctor, these children required admission for further investigation and treatment on an I.P basis.</p> <p>The Paediatric Department is providing services to the children of the surrounding Orphanages and to the children in the nearby two Autistic centres. Some of the patients admitted required some special investigations and follow up treatment.</p> <p><b>Deficiency Clarified</b></p>	<p><b>76.31%(435 patients admitted out of 570 beds during hospital rounds by assessors)</b></p>
4	<p>In Orthopaedics ward, 42 patients were admitted who required only</p>	<p>Most of the patients visiting the Orthopedics Department are Agricultural workers of the various</p>	<p><b>76.31%(435 patients admitted out of 570beds during hospital rounds</b></p>

	Physiotherapy and did not merit admission. Other 6 patients were of knee joint who can be managed on OPD basis.	<p>ages and predominantly from elderly age groups. These patients were admitted with knee pain, hip pain who require investigation like X-ray and MRI and after confirming diagnosis, replacement surgery is advised.</p> <p>Some of the patients admitted were posttraumatic patients who require continuous passive motion of the knee and elbow for better mobility of the joints.</p> <p>Some of the patients were requiring Physiotherapy for a long duration. Since the hospital is located in the interior area and patients commute by local transport, frequent travelling is difficult for such patients. If physiotherapy is given on OP basis the outcome of Physiotherapy may not be effective.</p> <p><b>Deficiency Clarified</b></p>	by assessors)
5	In General medicine wards, 86 patients had minor ailments like polyarthragia, anaemia, generalized weakness, etc. which can be managed on OPD basis.	<p>All the patients were examined by the Senior Faculty of the General Medicine department.</p> <p>The diagnosis and treatment received by the Indoor patients was documented in the case sheets. The patients were admitted on the basis of provisional diagnosis for further special investigation to confirm the diagnosis and for further management accordingly.</p> <p><b>Deficiency Clarified</b></p>	76.31%(435 patients admitted out of 570beds during hospital rounds by assessors)
6	Histopathology workload on day of assessment was only 7 &	Strict instructions were given to the surgical faculty (operating surgeons) in General Surgery,	<b>Histopathology 11 and cytopathology 6</b>

<b>Notes:</b>
<b>For purpose of working out the deficiency:</b>
(1) The deficiency of teaching faculty and Resident Doctors shall be counted separately.
<b>(A) For Teaching Faculty:</b>
(a) For calculating the deficiency of faculty, Prof., Assoc Prof., Asst. Prof & Tutor in respective departments shall be counted together. (b) Any excess teaching faculty in higher cadre can compensate the deficiency of lower cadre of the same department only. (c) Any excess teaching faculty of lower cadre/ category in any department cannot compensate the deficiency of any teaching faculty in the higher cadre/category of the same department or any other department. e.g. excess of Assistant Professor cannot compensate the deficiency of Associate Professor or Professor. (d) Excess/Extra teaching faculty of any department cannot compensate the deficiency of any teaching faculty in any other department.
<b>(B) For Resident Doctors:</b>
(a) Excess of SR can be compensated to the deficiency of JR of the same department only. (b) Excess SR/JR of any department cannot compensate the deficiency of SR/JR in any other department. (c) Any excess of JR cannot compensate the deficiency of SR in same or any other department. (d) Any excess/ extra teaching faculty of same or any other department cannot compensate the deficiency of SR/JR. e.g. excess of Assistant Professor cannot compensate the deficiency of SR or JR.
(2) A separate department of Dentistry/Dental faculty is not required where a dental college is available in same campus/city and run by the same management.
(3) Colleges running PG program require additional staff, beds & other requirements as per the PG Regulations – 2000.

#### 4. Verification of compliance submitted by institute:

SR.No.	Deficiencies pointed out by MCI	Compliance submitted by College	Remarks
1	<p>OPD attendance at 2 p.m. as verified by assessors from departmental registers as maintained by some departments was 221. The departments of General Medicine, General Surgery, O.G. do not maintain any departmental OPD register. The data of OPD attendance as provided by institute are inflated. Even so, total OPD comes to 774 against requirement of 800. There was no crowd of patients in OPD at 10 a.m. and also at 2 p.m. OPDs were totally empty by 2 p.m.</p>	<p>The data of the patients visiting the OPD of various clinical departments has been maintained in a electronic form and saved in the department computers.</p> <p>The Assessor did not accept the print outs of the OPD attendance taken from the Departmental computers. In fact on the day of inspection the combined OPD of all the departments was 1300.</p> <p>Subsequent to the assessment all the clinical Departments were instructed to maintain physical registers containing the details of the patients visiting the Outpatient Department. (A Xerox copy of the OPD attendance is enclosed.)</p>	<p>OPD attendance at 2 p.m. as verified by assessors from departmental registers as maintained by department was 705. The data of OPD attendance as provided by institute are inflated against the requirement of 800 OPD patients. There was no crowd of patients in OPD at 12:30 p.m. and also at 2 p.m.</p>

		MIMS is catering to a rural population residing in the surrounding villages. The peak OP is between 11 AM & 3 PM <b>Deficiency clarified and rectified.</b>	
2	Bed Occupancy at 10 a.m. on day of assessment was 46.31%.	<p>The assessor did physical verification of the bed occupancy by counting patients present on the ward between 9:30 to 11 am. There were more than 30 patients who were discharged in the 1<sup>st</sup> hour. Hence they were not present on the beds during physical verification.</p> <p>8 patients were waiting in a PAC room for fitness for surgery. These were In-patients posted for surgery for the next day and were not counted during the assessment.</p> <p>Patient referred to other department for cross consultation were not present on the beds during the count.</p> <p>Patient who were sent for Radiological investigation were not present on the bed during the count.</p>	Bed occupancy on the day of Assessment is 31.92% (182 patients out of 570 beds)

		<p>Had these patients been counted the bed occupancy would have been above 80 %. On an average the daily bed occupancy is between 80-81%</p> <p>MIMS hospital is catering health services to a population residing around more than 100 villages, situated in Medchal and Shamirpet Mandals.</p> <p>To create Health awareness and to take Health Care Delivery system to the door step, we undertake Rural camps on Regular basis in Villages where Primary care centre does not exists. Screened patients are then referred to MIMS for further Treatment.</p> <p>This being the nearest hospital , for the surrounding villages, the patients who come are getting admitted for their ailments. All the services are provided free of cost, including hospitalization charges. Free food is also served to needy patients.</p>

		<p>Through these Camps the Hospital is getting Regular patient flow and it is benefiting the nearby villages to get health care at the door steps. Routinely more number of patients get admitted following Medical camps. These patients are investigated, treatment is given and a daily follow up is done.</p> <p><b>Deficiency Clarified and Rectified.</b></p>	
<p>3</p>	<p>Number of genuine patients was only 20, rest were normal healthy children. They were found running and playing in the ward at 11:30 a.m.</p>	<p>In the Dept of Pediatrics patients were with complaints of Fever, Cold, Cough and were on the path to recovery. These Pediatric patients are visiting MIMS from far of distant places and are from less privileged families. On admission free investigation, free treatment and free food is given. Hence the parents of these children are very keen to get their wards admitted and stay in the hospital till complete recovery. Refusal of admission would make the parents disappointed and</p>	<p>There were only 20 patients out of 60 beds who require admission in the Paediatric ward. Remaining 40 patients were healthy and were found playing in the ward. These 40 patients can be managed for their minor elements in Outpatient department.</p>

**Notes:****For purpose of working out the deficiency:**

(1) The deficiency of teaching faculty and Resident Doctors shall be counted separately.

**(A) For Teaching Faculty:**

(a) For calculating the deficiency of faculty, Prof., Assoc Prof., Asst. Prof & Tutor in respective departments shall be counted together.

(b) Any excess teaching faculty in higher cadre can compensate the deficiency of lower cadre of the same department only.

(c) Any excess teaching faculty of lower cadre/ category in any department cannot compensate the deficiency of any teaching faculty in the higher cadre/ category of the same department or any other department. e.g. excess of Assistant Professor cannot compensate the deficiency of Associate Professor or Professor.

(d) Excess/Extra teaching faculty of any department cannot compensate the deficiency of any teaching faculty in any other department.

**(B) For Resident Doctors:**

(a) Excess of SR can be compensated to the deficiency of JR of the same department only.

(b) Excess SR/JR of any department cannot compensate the deficiency of SR/JR in any other department.

(c) Any excess of JR cannot compensate the deficiency of SR in same or any other department.

(d) Any excess/extra teaching faculty of same or any other department cannot compensate the deficiency of SR/JR.

#### 4. Verification of compliance submitted by institute:

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	In respect of Dr. Krishna, Senior Resident, in the Dept. of Orthopaedics, signature in morning & afternoon differed. He did signature in afternoon in front of assessor over the morning signature to hide this fact.	<p>Dr. Krishna Kunkumalla, a Senior Resident in the Orthopaedic department, signed on the attendance sheet in the morning session at around 10.15 am.</p> <p>For the purpose of the attendance signature in the morning, the faculty and the residents were asked to assemble in the College Auditorium. The doctors were seated in the auditorium, grouped together, with their department colleagues, and later the attendance was taken. Dr. Krishna was present in the auditorium along with the other department colleagues. This whole process was recorded, by taking photographs of the doctors seated in the auditorium and subsequently the photos were downloaded on to a CD/Pen Drive and handed over to the Assessor's. <b>In one of the photo clipping Dr.Krishna is seen seated in the auditorium. (Annexure-I) confirming that he was present in the morning session for the attendance.</b></p>	Dr. Krishna Kunkumalla, no longer works in the Orthopaedic department

		<p>The signatures on the attendance sheets are similar to that on the Declaration Forms. (Xerox copy Declaration Forms enclosed) <b>Annexure-II</b></p> <p><b>Deficiency clarified</b></p>	
2	<p>In respect of Dr. N. Reddy, Senior Resident, Dept. of Orthopaedics, signature in morning &amp; afternoon are not matching.</p>	<p>Dr. N. Reddy, Senior resident, Orthopaedics was present in the morning session, in the auditorium, and signed on the attendance sheet in the morning. Under the column for the <b>Initial Signatures</b> at 10:00 am, he mis interpreted the word Initial Signatures and put his short / initial sign. Later at 2:00 pm under the column 'signature Post verification' he signed his full signature. Hence the mis-match of the signatures. During both the session he was present and he himself signed on the attendance sheets.(Xerox copy of the declaration enclosed) <b>Annexure-III</b></p> <p>For the purpose of the attendance signature in the morning, the faculty and the residents were asked to assemble in the College Auditorium. The doctors were seated in the auditorium, grouped together, with their department colleagues, and later the attendance was taken. Dr. N. Reddy was present in the auditorium along with the other department colleagues. This whole process was recorded, by taking photographs of the doctors seated in the auditorium and subsequently the</p>	<p>The signatures matched on the day of inspection. 		<p>photos were downloaded on to a CD/Pen Drive and handed over to the Assessor`s. <b>In one of the photo clipping Dr. N. Reddy is seen seated in the auditorium, confirming the fact that Dr. N Reddy was physically present in the morning session too - Annexure-IV.</b></p> <p><b>Deficiency clarified</b></p>	
<p>3 (i)</p>	<p>In Paediatrics ward few of the patients were not appear to be within Pediatric age group. Most of the children did not appear sick to fit in the criteria for admission. In PICU mothers were sleeping with children with casual dress which is unhygienic for intensive cares.</p>	<p>The Paediatrics department is admitting patients between the age group of 0-15.</p> <p>The previous day prior to the inspection a couple of children (15-20) were admitted with food poisoning and they responded to the treatment and by the next day morning they were asymptomatic and active.</p> <p>Most of the patients are from the rural area and are illiterates and are unaware of the hospital protocols and about the hygiene. Post inspection strict instructions have been issued to the nursing staff to ensure that the mother`s of the children admitted in the PICU are given Hospital Gown`s, without which they will not be allowed in the PICU. This protocol is already being followed for the mothers of children admitted in NICU.</p> <p><b>Order copy enclosed - Annexure-V</b></p> <p><b>Deficiency rectified &amp; clarified.</b></p>	<p>Defecieny remains as such. No of genuine patients was only 5, rest were normal healthy children They were found running and playing in the ward at 2 PM. (Video (playing) attached).</p> <p><i>Handwritten notes:</i> 7/19 7/19 07/19/17</p>

(ii)	In Dermatology case sheets of two patients were empty during time of Inspections (IP 005569/17 & IP 005575/17).	The two patients admitted on the day in the Dermatology Ward were examined in the OPD and sent for admission to the Wards. In the morning hour all the faculty along with the Residents were in the Auditorium for the attendance purpose. Subsequently, later in the day, afterwards the patients were examined and treatment and investigations details were written. <b>(Annexure-VI)</b>  <b>Deficiency clarified</b>	No empty case sheets were observed.
(iii)	In Orthopaedics patients requiring physiotherapy were admitted as Indoor patient.	In the Orthopaedics ward patients with Post Trauma and Post Operative patients require Continuous Passive Motion (CPM) of the knee and elbow joint for better post operative outcome and better functioning of the joints. Such patients require Physiotherapy and are admitted in the Orthopaedic ward.  <b>Deficiency clarified</b>	<p><i>deficiency remains</i></p> <p><i>Mr. B. Stalin 7/9/17</i></p> <p><i>07/09/17</i></p> <p><i>Anand 7/9/17</i></p>
(iv)	In Male Psychiatry ward two females were lying on the cot (Photograph taken by assessors mobile).	Out of the 10 female patients in the Psychiatry Ward during the day of Inspection two female patients were disturbed and agitated and they were shifted to a separate empty ward for focused attention and patient safety. There were No male patients in the ward.  All the six(06) male inpatients were kept in a separate ward.	In a ward labeled as Male ward, all patients were Female patients .

		<b>Deficiency clarified</b>	
(v)	In Medicine Ward patients were admitted due to abdominal pain, neck pain, knee pain etc. Cataract patient admitted in Medicine ward	<p>In the General Medicine ward a few patients were admitted with suspected Dengue Fever and they had complaints like malaise, body pains, knee and neck pains and also for hypertension.</p> <p>A patient with cataract was detected with hyper thyroidism and was referred to the Medicine department for control of the thyroid-disorder, prior to the cataract surgery.</p> <p><b>Deficiency clarified</b></p>	Most of the patients had minor complains and did not require hospitalization.
4	Other deficiencies as pointed out in the assessment report.	<p>Ten (10) Tutors were not accepted during verification of Declaration Forms during the current inspection.</p> <p>However, all these Tutors were Postgraduate students and paid stipend and hence not under the Tax bracket. Hence Form-16 was not generated. They were accepted as Tutors during previous MCI inspections.</p> <p>The Pay scales of the faculty in the same designation depends upon the Seniority and the service experience in the respective Departments.</p>	PG students were accepted as Tutors.

faculty in the higher cadre/category of the same department or any other department. e.g. excess of Assistant Professor cannot compensate the deficiency of Associate Professor or Professor.

(d) Excess/Extra teaching faculty of any department cannot compensate the deficiency of any teaching faculty in any other department.

**(B) For Resident Doctors:**

(a) Excess of SR can be compensated to the deficiency of JR of the same department only.

(b) Excess SR/JR of any department cannot compensate the deficiency of SR/JR in any other department.

(c) Any excess of JR cannot compensate the deficiency of SR in same or any other department.

(d) Any excess/ extra teaching faculty of same or any other department cannot compensate the deficiency of SR/JR. e.g. excess of Assistant Professor cannot compensate the deficiency of SR or JR.

(2) A separate department of Dentistry/Dental faculty is not required where a dental college is available in same campus/ city and run by the same management.

(3) Colleges running PG program require additional staff, beds & other requirements as per the PG Regulations - 2000.

### 4. Verification of compliance submitted by institute:

Sr. No.	Deficiencies reported from GOI/MCI	Compliance by College sent to GOI/MCI	Remarks of the Assessors after the assessment
1	Bed Occupancy was 69.90% on day of assessment	<p>There were 348 in-patients on the day of assessment.</p> <p>The assessor did physical verification of the bed occupancy by counting patients present on the beds in all the wards between 9:45 to 11:00 AM.</p> <p>There were more than 20 patients who were discharged in the 1<sup>st</sup> hour and hence were not present on the beds during the physical verification.</p> <p>6 patients were waiting in the PAC room for fitness for surgery. These were in-patients posted for surgery for the next day and were not available on the beds during the assessment.</p> <p>Admitted patients who were referred to other departments for cross consultation were not present on the beds during the count.</p> <p>3 Pediatric patients who were treated for Septicemia were shifted from the NICU to</p>	Bed occupancy is 75.96% on the day of assessment (433 out of 570)

		<p>the ward for completion of the course of inject able antibiotic. These neonates were lying with their mothers in the post natal ward. Hence, these 3 patients were not present during the physical verification.</p> <p>A few Orthopaedics patients were sent for rehabilitation and physiotherapy and were not counted during physical verification.</p> <p>Had these patient been counted the bed occupancy would be around 80%.</p> <p>In the last 2 – 3 months we have increased the number of villages covered in the health camps. As a result the bed occupancy has improved to about 75 – 80%.</p> <p>(copies of bed occupancy for the month of October, November and December 2016 are enclosed) <b>Annexure : 1</b></p> <p>(Copies of Admissions and discharges for the month of October, November and December 2016 are enclosed) <b>Annexure : 2</b></p>	
2	ICUs: Occupancy in ICCU, SICU was only 2 in each	<p>Two patient rooms from the ICCU were taken for 2D ECO Cardiography, one patient of Organo phosphorous poisoning was shifted out from the ICCU as the patient had stabilized. Hence there were only 2 patients in the ICCU during the physical verification.</p> <p>The post operative patients were shifted to the ward &amp; one patient with SAIO was posted for surgery. Hence the bed occupancy in the SICU was 2 during the physical verification.</p> <p>More than 70% of Bed occupancy will be seen on an average on any given day in the acute care areas. (Copies of admissions in acute care areas for the month of October, November and December 2016 are enclosed) <b>Annexure : 3</b></p>	<p>In SICU ,03 patients out of 05 Beds.</p> <p>In ICCU, 04 patients out of 05 beds.</p>
3	There was NIL patient in O.T. at time of taking round. Data of 18 Major operations given by the institute is exaggerated.	<p>The operation theater was under fumigation on the day of assessment ie. on 3/8/16. A Septic case was operated in the early hours of 3/8/16. The surgeon and the anaesthetist were waiting for defumigation /devaporization of the OT.</p> <p>The OT was expected to be functional by 10:30 am and subsequently the work was to</p>	<p>Orthopedics 02 cases were going on.</p> <p>Surgery 02 cases were going on.</p> <p>01 case in Ophthalmology</p>

Dr. K. Baral

Signature of Assessors

Dr. A.V Gokhale

Date : 17/03/2017

Dr. S. K Singh

Signature of Dean/Principal

		<p>be started. Hence there was no patient in the main OT during the visit by the assessor at 10:22 am.</p> <p>The Assessor's have acknowledged the fact that there were 16 patients waiting in the pre-operative room to be taken up for surgery On most of the working days there are about 18 to 20 major surgical operations being done. (Copies of the major cases done for the months of June, July, August, November and December 2016 are enclosed) <b>Annexure : 4</b></p>	<p>&amp; 01 case in ENT was going on. In OBGY OT one (01) Vaginal Hysterectomy &amp; 03 Caesarean sections were going on at the time of visit. Total major OT cases were 10 at the time of inspection.</p>
4	<p>Data of Minor operations as 37 given by the institute is exaggerated. There was NIL Minor Operation observed on day of assessment.</p>	<p>The patients and the accompanying attenders visiting this hospital are mostly daily wages earners. Absence from work results in financial loss to their families. The policy of the hospital is to reduce the hospital stay so that there is minimum absence from work, thereby helping the patients in alleviating their financial loss.</p> <p>The patient who are identified in the OP for minor surgical procedures are worked up with their preliminary investigations during their OP visit and the reports are checked by the surgical faculty on the same day. If found fit for surgery they are given an appointment for a later date for surgery and asked to come in the morning. Such patient on arrival at the hospital, on the day of surgery after registration, are taken to the minor OT and posted for the surgery. Therefore, the minor OT is functional from 10:00 AM and continues till 5 to 5:30 PM on most days of the week. Post procedure some of these patients are discharged on the same day and others who have been administered Short General Anaesthesia are discharged the next day.</p> <p>The hospital is conducting one major health camp every week and one to two specialty camps in between during the week in the surrounding rural areas. In these camps the patient who need surgical treatment are identified and ask to visit the hospital on a later given date. On arrival at the hospital the preliminary investigations are done on the priority basis (a separate sample collection centre is functioning in the OP block) and after the blood investigations are completed they are posted for minor surgical procedure on the same day. Hence the works in the minor OT begins around</p>	<p>04 minor Operations was in OBGY OT. 03 for Surgery Minor OT. 01 for Orthopedics. 05 for ENT minor OT. Total minor cases were 13 at the time f inspection.</p>

Signature of Dean/Principal

		<p>10:30 AM.</p> <p>Because of the above mentioned reasons there were no cases in the minor OT during the assessors visit at 10 am.</p> <p>The assessors in their report have verified that there were 6 Histopathology specimens sent to the lab. These specimens were from the patients who had undergone the surgical procedure on that day.</p> <p>The Assessors have visited only the minor OT of the OT complex and probably they have missed visiting the minor OT of ENT, Ophthalmology, General Surgery and Obst. &amp; Gynaec, which were functional on the day of assessment and surgeries were being performed in these theatres.</p> <p>On an average the minor surgical workload is about 35-40 per day, which is calculated on monthly basis. (copies of the minor surgical work load is enclosed) <b>Annexure : 4</b></p>	
5	Other deficiencies as pointed out in the assessment report	Nil	

**Comments:** In Pediatrics ward few of the patients were not appear to be within Pediatric age group. Most of the children did not appear sick to fit in the criteria for admission. In PICU mothers were sleeping with children with casual dress which is unhygienic for intensive cares. In dermatology case sheets of two patients were empty during time of inspection (IP 005569/17 & IP 005575/17). In Orthopedics patients requiring physiotherapy were admitted as Indoor patient. In Male Psychiatry ward two females were lying on the cot. (Photograph taken by assessors mobile). In medicine ward patients were admitted due to abdominal pain, neck pain, knee pain etc. Cataract patient admitted in Medicine ward. (evidence sheet given).

**Notes:****For purpose of working out the deficiency:**

(1) The deficiency of teaching faculty and Resident Doctors shall be counted separately.

**(A) For Teaching Faculty:**

- (a) For calculating the deficiency of faculty, Prof., Assoc Prof., Asst. Prof & Tutor in respective departments shall be counted together.
- (b) Any excess teaching faculty in higher cadre can compensate the deficiency of lower cadre of the same department only.
- (c) Any excess teaching faculty of lower cadre/ category in any department cannot compensate the deficiency of any teaching faculty in the higher cadre/category of the same department or any other department. e.g. excess of Assistant Professor cannot compensate the deficiency of Associate Professor or Professor.
- (d) Excess/Extra teaching faculty of any department cannot compensate the deficiency of any teaching faculty in any other department.

**(B) For Resident Doctors:**

- (a) Excess of SR can be compensated to the deficiency of JR of the same department only.
- (b) Excess SR/JR of any department cannot compensate the deficiency of SR/JR in any other department.
- (c) Any excess of JR cannot compensate the deficiency of SR in same or any other department.

Dr. K. Baral

Signature of Assessors

Dr. A.V Gokhale

Dr, S. K Singh

Date : 17/03/2017

Signature of Dean/Principal

(d) Any excess/ extra teaching faculty of same or any other department cannot compensate the deficiency of SR/JR.  
e.g. excess of Assistant Professor cannot compensate the deficiency of SR or JR.

(2) A separate department of Dentistry/Dental faculty is not required where a dental college is available in same campus/city and run by the same management.

(3) Colleges running PG program require additional staff, beds & other requirements as per the PG Regulations - 2000.

### 7. Details of Faculty/Residents not counted/accepted.

(Only faculty/residents who signed attendance sheet before 11:00 am on the first day of assessment should be verified. (In case of Junior Residents/Senior Residents on night duty, 12:00 noon.) No verification of Declaration forms should be done for the faculty/residents coming after 11:00 am of the first day of assessment)

Sr. No	Name	Designation	Department	Remarks/Reasons for Not Considering

		<ol style="list-style-type: none"> <li>1. 16<sup>th</sup> &amp; 17<sup>th</sup> November 2015.</li> <li>2. 04<sup>th</sup> December 2016</li> <li>3. 02<sup>nd</sup> March 2016</li> </ol> <p>In the first inspection on 16<sup>th</sup> &amp; 17<sup>th</sup> November 2015, the assessors have noted deficiency of teaching faculty as <b>1.84%</b>, below 2%. No other deficiency was pointed out, either in residents or clinical material or infrastructure or other facilities.</p> <p>Second surprise inspection was carried out on <b>4<sup>th</sup> December, 2015</b>, again to verify clinical material, faculty and residents. Increase of additional 50 seats was not permitted, citing deficiency of faculty and clinical material.</p> <p>A compliance report was submitted to the Ministry of Health &amp; Family Welfare and MCI, clarifying the reasons for the deficiencies pointed out by the assessors, as under.</p> <p>The faculty deficiency during the inspection day on 04/12/2015 was because of the following reasons.  During the year 2015, there were (19) MCI inspections, either for PG recognition or increase of PG seats or UG admissions since May 2015. The management did not permit the faculty or residents to avail any kind of leave from May' 2015 till the last inspection i.e. 17<sup>th</sup> November 2015. Since the inspection was over successfully, the management has permitted the staff to avail their accumulated leaves and carrying out major camps were deferred till January 2016, as the faculty were permitted to avail leave.</p> <p>The hospital is conducting one major health camp every week and 1-2 specialty camps in between during each week in the surrounding Rural areas. Through these camps the hospital is getting regular patient flow and it is benefiting the nearby villages to get the health care at their door steps. (Copy of Health Camps conducted is enclosed)  <b>Annexure-I</b></p> <p>The Assessor (Coordinator) has verified and submitted a detailed report of medical camps being held by the institution by way of a</p>	<p>for operation theater &amp; investigations.  <b>Bed occupancy is 48.33%.</b></p>

		<p>separate letter to the Secretary, MCI. (Letter submitted by the Assessor is enclosed.) <b>Annexure - II</b></p> <p>A third surprise inspection was carried out on the recommendation of the Ministry on 2<sup>nd</sup> March 2016 to verify the clinical material and faculty including residents .</p> <p>The assessors did physical verification of bed occupancy by counting patients lying (present) on the beds in all the wards between 10 to 11 AM. Patients admitted in wards, who were referred for Radiological investigations, like USG, MRI, CT, X-Ray etc., Pre-anaesthetic check up or referred to other departments, were not counted. More than 30 in patients were discharged and they were not available on the beds.</p> <p>There are 45 beds in acute care areas where about 26 In-patients were under treatment, who were not counted. They are either shifted from in patient wards or admitted directly for intensive care treatment. Had they also were counted; % of occupancy would have gone up more than 70%. Unfortunately, the assessors did not check the in-patient register or the computer records in the reception counter.</p> <p>For unknown reasons, the Assessor did not take into account all the above patients on that particular day of Assessment. In fact, on an average the bed occupancy is 75% to 80% every day, if it is calculated per annum. As per Minimum Standard Requirements for Medical College Regulations, 1999 (Amended up to July 2015), under Clause B.1.8, the minimum requirement of Bed occupancy shall be 75% per Annum, as per the terms of Notification published on 03/11/2009 in the Gazette of India. During earlier inspections the assessors used to check the clinical material randomly, i.e., average patients on any particular day of the previous three to four months.. (Copies of Clinical Material pertaining to IP for the months of March, April &amp; May 2016 are enclosed) <b>Annexure-III</b>  <b>Deficiency is clarified.</b></p>	
2	Deficiency of faculty is 7.05% as detailed in the report	<b>11 out of 156, constituting 7.05%. (One Associate professor, Nine Assistant Professors and one Tutor)</b>	Dr Sayed Mustafa Asst Prof Gen Medicine

<b>Notes:</b>
<b>For purpose of working out the deficiency:</b>
(1) The deficiency of teaching faculty and Resident Doctors shall be counted separately.
<b>(A) For Teaching Faculty:</b>
(a) For calculating the deficiency of faculty, Prof., Assoc Prof., Asst. Prof & Tutor in respective departments shall be counted together.
(b) Any excess teaching faculty in higher cadre can compensate the deficiency of lower cadre of the same department only.
(c) Any excess teaching faculty of lower cadre/ category in any department cannot compensate the deficiency of any teaching faculty in the higher cadre/category of the same department or any other department. e.g. excess of Assistant Professor cannot compensate the deficiency of Associate Professor or Professor.
(d) Excess/Extra teaching faculty of any department cannot compensate the deficiency of any teaching faculty in any other department.
<b>(B) For Resident Doctors:</b>
(a) Excess of SR can be compensated to the deficiency of JR of the same department only.
(b) Excess SR/JR of any department cannot compensate the deficiency of SR/JR in any other department.
(c) Any excess of JR cannot compensate the deficiency of SR in same or any other department.
(d) Any excess/ extra teaching faculty of same or any other department cannot compensate the deficiency of SR/JR. e.g. excess of Assistant Professor cannot compensate the deficiency of SR or JR.

		clinical material assessed on 16 <sup>th</sup> & 17 <sup>th</sup> Nov 2015 and on 4 <sup>th</sup> Dec 2015 at 4:00 PM.	
4	Workload of Special investigations like Ba, IVP was NIL on day of assessment.	The clinical material on the day of assessment at 4:00 pm is enclosed.	2 Ba / IVP done
5	There were only 04 Major & 04 Minor operations for the whole hospital on day of assessment.	Most of the doctors were on planned leaves, hence not many cases were posted on the assessment day. However the workload of surgeries is usually high. (Copy of clinical material assessed on 16 <sup>th</sup> & 17 <sup>th</sup> Nov 2015 enclosed)	There were 12 Major & 12 Minor operations. 1 Normal Delivery 2 caesarian Sections
6	Histopathology workload is only 04 & Cytopathology workload is only 03 on day of assessment.	Strict instructions are given to all the operating surgeons of G. Surgery, Orthopaedics, ENT, OBG, including DVL to send more Histopathological and Cytopathology specimens.	Histopathology 06 & Cytopathology 04
7	Microbiology & Serology workload is inadequate.	Workload is increased after reducing the charges for investigations. (Copy of workload is enclosed)	Microbiology 31 & Serology 75
8	There were only 2 patients each in ICCU, MICU on day of assessment which is inadequate.	There were 9 patients admitted under MICU + ICCU by 4:00 pm. MICU, ICU, ICCU and RICU has 20 beds, and on an average more than 80% acute cases are being admitted per day. (Copy of clinical material is enclosed)	ICCU 01 patient, MICU 03 patients
9	Nursing staff: Only 304 Nurses are available against requirement of 372.	There is acute shortage of trained qualified nurses. However, because we are also running Nursing College with 100 admissions per annum (however only 50% to 60% seats are filled up per annum) we are able to retain the outgoing qualified nurses. Constant efforts are being made to recruit more nurses.	Nursing staff: Only 335 Nurses are available against requirement of 372.
10	Anatomy department: There are only 105 specimens	The department has increased the number of specimens from 105 to 130.	Available. Complied
11	Other deficiencies as pointed out in the assessment report.	Nil	Nil

**FORMAT OF FACULTY DEFICIENCY**

1. Deficiency of faculty is as under:

(a) The following faculty were not available: (Include those who are not available, absent, not signed attendance sheet before 13.03.2016)

- (I) Professors: 0  
 (II) Associate Professor: 1 (Orthopaedics-1)  
 (III) Assistant Professor: 9 (Gen. Medicine-2, Gen Surgery-2, Orthopaedics-1, Anaesthesiology-4)  
 (IV) Tutor: 1 (Pharmacology-1)

(b) The following faculty have not been considered even though present due to reasons mentioned hereunder: **NIL**

Sr. No.	Name	Department	Designation	Reason for not considering

c) Deficiency of Teaching Faculty : 11 out of 156 i.e. 7.05 %

2. Deficiency of Residents is as under:

(a) The following Residents were not available: (Include those who are not available, absent, not signed attendance sheet before 13.03.2016)

- (I) Senior Resident: 5 (Gen Surgery-4, Radiology-1, )  
 (II) Junior Resident: 0

(b) The following Residents have not been considered even though present due to reasons mentioned hereunder: **NIL**

Sr. No.	Name	Department	Designation	Reason for not considering

2) Deficiency of resident doctors : 5 out of 87 i.e. 5.75 %

<b>Notes:</b>
<b>For purpose of working out the deficiency:</b>
(1) The deficiency of teaching faculty and Resident Doctors shall be counted separately.
<b>(A) For Teaching Faculty:</b>
(a) For calculating the deficiency of faculty, Prof., Assoc Prof., Asst. Prof & Tutor in respective departments shall be counted together.
(b) Any excess teaching faculty in higher cadre can compensate the deficiency of lower cadre of the same department only.
(c) Any excess teaching faculty of lower cadre/ category in any department cannot compensate the deficiency of any teaching faculty in the higher cadre/ category of the same department or any other department. e.g. excess of Assistant Professor cannot compensate the deficiency of Associate Professor or Professor.
(d) Excess/Extra teaching faculty of any department cannot compensate the deficiency of any teaching faculty in any other department.
<b>(B) For Resident Doctors:</b>
(a) Excess of SR can be compensated to the deficiency of JR of the same department only.
(b) Excess SR/JR of any department cannot compensate the deficiency of SR/JR in any other department.
(c) Any excess of JR cannot compensate the deficiency of SR in same or any other department.
(d) Any excess/ extra teaching faculty of same or any other department cannot compensate the deficiency of SR/JR. e.g. excess of Assistant Professor cannot compensate the deficiency of SR or JR.
(2) A separate department of Dentistry/ Dental faculty is not required where a dental college is available in same campus/ city and run by the same management.
(3) Colleges running PG program require additional staff, beds & other requirements as per the PG Regulations - 2000.
